

Product Code . JL-LEP-10345

## VSEPR Model

### Description

---

#### Specifications:

a) represent all the 14 different shapes of simple molecules with corresponding angles to perform exercises on VSEPR theory

b) describe the geometry of simple compounds

Assemble the 14 different shapes of VSEPR Models and study them

**Type:** Ball and stick

**Shape of atom parts :** Solid spheres

**Material of spheres :** Polypropylene (plastic)

Diameter of sphere/atom

Hydrogen, halogen, and metal sphere/atom: 17 mm

**Other atoms:** 23 mm

As per DEPED Guidelines.
